Gérard Dubois / Impedimenta

El francés Gérard Dubois eleva al máximo eso de que las apariencias engañan invitando a explorar detenidamente sus ilustraciones. Parodiando los libros pedagógicos de principios del siglo XX, inyecta celebradas dosis de humor negro con una crueldad que acaba despertando la sonrisa. Edward Gorey estaría orgulloso de él. French illustrator, Gérard Dubois, takes the sentence "appearances can be deceiving" and elevates it to its maximum expression, inviting the reader to carefully explore his illustrations. The book, which parodies pedagogical books from the beginning of the 20th Century, injects some doses of black humour with a cruelty level up front which you can't help but laugh at. A book that would make Edward Gorey proud.
